PROGRAM DESCRIPTION

This one-day event will help service providers to expand their knowledge and have a better understanding of the dynamics of interpersonal violence. Our goal is to provide quality, local training on family violence issues for participants from the Upstate target population. Ultimately, the desired outcome would be to increase victim safety and offender accountability. We would like to reduce the number of domestic violence, child abuse, and sexual assault/abuse victims in our community through increased collaboration, understanding and communication between those organizations that assist victims. In addition, there will be exhibits from organizations, vendors of interest, etc., and the opportunity of networking with other service providers.

LEARNING OUTCOMES

Upon completion of the program, the participant will be able:

(In reference to Interpersonal Violence)

- Describe how to be an advocate in the prevention, recognition, assessment and management
- Apply best practices and protocols in the management of interpersonal violence

TARGET AUDIENCE

Nurses (Emergency Department, Women and Children Health Services, Healthcare Management and School Nurses), Social Workers, Therapists, EMS, Physicians, LEO, Judges, Attorneys, Social Services, Ministers and Legal Personnel
